TRANSIT TIMES TO EUROPE

MORE INFORMATION

- These transit times are based on our regular service. The number of days is indicative but not guaranteed.
- The delivery time does not include the time needed for customs clearance (in Norway, Switzerland and a number of special territories within the EU, e.g. Liechtenstein, Livigno and Vatican City).
- For shipments to remote areas and islands the transit time can be longer. If you want to check whether the destination of your shipment is situated in a remote area, please use our online remote area tool (<https://dct.dhl.com>) or contact our customer service.
- In order to deliver your shipment within the given number of days, your international shipments should be collected separately from your Benelux shipments.
