- These transit times (in business days) are based on our regular service. They are indicative but not guaranteed.
- The delivery time does not include the time needed for customs clearance (for shipments to the UK, Norway, Switzerland and a number of special territories within the EU, e.g. Liechtenstein, Livigno and Vatican City).
- If your shipment deviates from our size and weight limits, it may take a day longer to deliver. This concerns parcels that cannot be sorted automatically (too large, too heavy or because of their nature, shape, packaging).
- For shipments to remote areas and islands the transit time can be longer. Please check our [Remote Area list](#) to verify whether the destination of your shipment is situated in a remote area.
- In order to deliver your shipment within the given number of days, your international shipments should be collected separately from your Benelux shipments.
